**Processor:** 1.5 Ghz

**Memory:** 1 GB RAM

**Graphics:** N/A

**Storage:** 100 MB available space

**Sound Card:** N/A

English

---

Bought this because it was cheap and the page looked interesting (and despite the fact there were no reviews).

Due to early frustration (it was not immediately obvious that the second choice of tower was only for flying enemies - I thought it was a bug), my initial thoughts were to refund, but I am glad I didn't!

Once you work out the basics, you have a very interesting Tower Defense title. Plenty of options, but you have to get the mix right.

Still needs a bit of work but endure a bit of early pain for a potential gem .
